ROCK SOLID
STONE FLOORS

PRODUCT SPEC SHEET

Natural Stone Flooring

FREE IN-PERSON ESTIMATE

Real stone, installed over the concrete you already have.

Fixed, factory-direct pricing. The owner and his crew do every install.

Call or text 704-325-2844

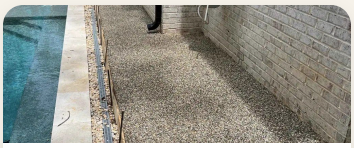

Key specs

	RIVER STONE	MARBLE & QUARTZ
Binder	Two-part epoxy, 100% solids	Clear two-part UV-stable resin
Stone	Rounded natural river stone	Kiln-dried marble and quartz, 1–6 mm
Strength	Shore D 75 · 4,000–10,000 PSI tensile	Reinforced with binding quartz
Thickness	½" pool decks, patios and walkways · ¾" driveways	
Finish	Textured, grippy	Smooth, flat, fully permeable
Care	Clean and reseal instead of replacing	Sweep and pressure wash. Reseal anytime; every 8–10 years is regular maintenance
Cold weather	Cold-weather resin below 60°F	UV-resistant, no yellowing

Why use Rock Solid materials

- Real natural stone, not paint or a printed finish
- Installs over your existing concrete with no demolition
- Permeable, so water drains through instead of pooling
- Textured, slip-resistant surface around pools
- High UV resistance for full-sun Carolina decks
- Built for driveways and high-traffic areas
- Indoor and outdoor options, including garages

Where it goes

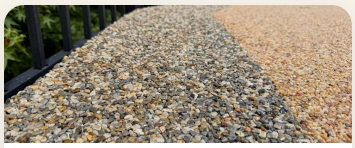

Pool decks
½" · hand-finished at coping

Patios & porches
½" · steps, risers, treads

Driveways
¾" · built for vehicle traffic

Walkways & garages
½" · one seamless surface

How we install it

1. **Free estimate.** We measure and check your concrete.
2. **Repair and prep.** Cracks fixed, surface prepped.
3. **Hand-trowel.** Every stone coated in resin, troweled smooth.
4. **Done.** Most jobs take 1–3 days.

Care and colors

Blow or rinse off debris. A garden hose and household cleaner handle the rest.
